STAFFAN PREUTZ DESIGN
2017

STAFFAN PREUTZ DESIGN

Staffan Preutz has led innovation in optics from Polaris rimless eyewear in the 1970s, to the multi-award winning SP and now the ingenious Staffan Preutz Design.

Staffan Preutz has achieved global success through an enviable reputation for quality, knowledge and vision.

**“Lightweight tailored eyewear -
as individual as you are”**

DESIGN

Personalisation

Personalise Staffan Preutz Design luxury eyewear to match your customers' style:

- STEP 1. **Choose frame shape.**
- STEP 2. **Tailor size to fit face shape.**
- STEP 3. **Select frame colour.**
- STEP 4. **Select side design & colour.**
- STEP 5. **(optional) Personalise with features.**

Tailored Fit

Staffan Preutz Design eyewear can be tailored to fit the wearer perfectly using measurements taken by the optician.

Material Innovation

The NXT Plastic front sheet is:

- Strong and durable but flexible
- Lightweight
- Solvent resistant
- Stable over time - maintains its curvature

PATTERN DESIGNS

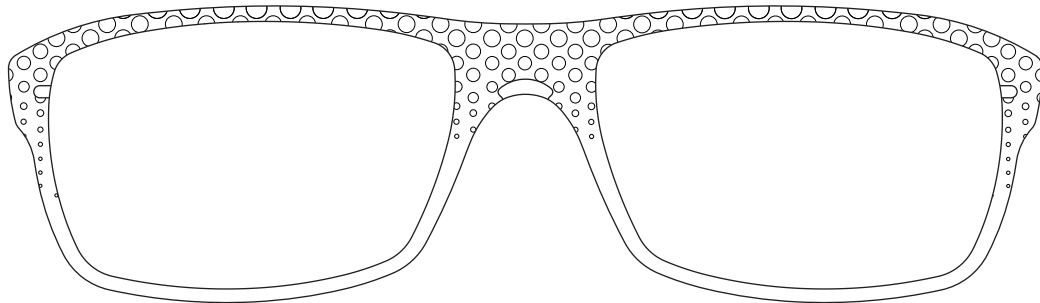

Patterns designs available on **any shape** in matt and solid colours.

Pattern 1 - Graduated Stripes

Pattern 2 - Graduated Diamonds

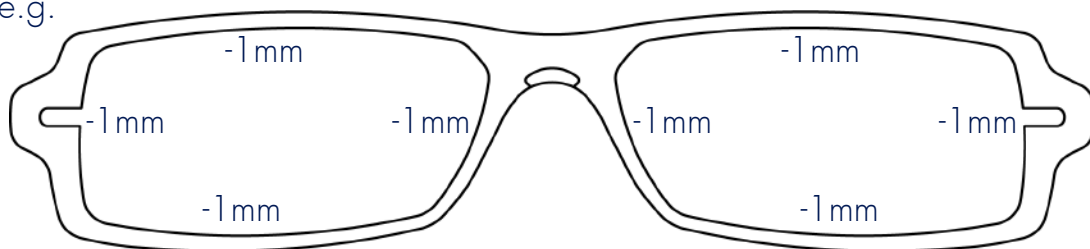

Pattern 3 - Graduated Circles

SIZE ALTERATIONS

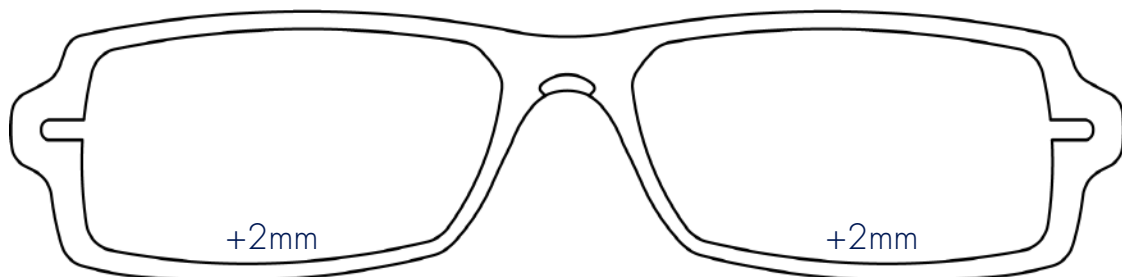

Staffan Preutz Design can be tailored to fit perfectly for the best cosmetic and optical effect. The size modifications available are listed below:

- *1 = -2mm each lens
- *2 = -4mm each lens
- *3 = +2mm each lens
- *4 = +4mm each lens
- *5 = -2mm in width each lens
- *6 = -4mm in width each lens
- *7 = +2mm in width each lens
- *8 = +4mm in width each lens
- *9 = +2mm on bottom each lens

e.g.

To reduce each lens size by 2mm in width and height as above, order size change *1 (-2mm).

To add 2mm in depth to the shape, useful for accommodating progressive lenses order size change *9 (+2mm on bottom).

NOTE: Distance between lenses (DBL) remains constant when changing size.

MINOR ADJUSTMENTS

- The bridge and lugs can be manipulated using light pressure. No heating is required.
- Length to bend behind the ear can be specified when ordering or easily adjusted in store.
- An alternative bridge is available for those that require the frame to sit slightly higher and further away from the face. For more information please contact our customer service team.

GLAZING INFORMATION

- All lens materials can be used to glaze Staffan Preutz Design with the exception of glass.
- Make a groove around the edge of each lens 0.8mm deep and the same width as a traditional supra frame.
- Assemble each lens by inserting it into the frame from the back, starting with the sharpest corner.
- No heat is required to glaze or adjust Staffan Preutz Design frames.
- For further glazing advice please contact our customer service team.

SAMPLE CODES

Engraved on the lens of a sample is a code referring to the products specifications.

- E.g. SPD P100*1/26/30
- P100 indicates the shape number. The *1 indicates a -2 size. (If standard 'O' size, no size code will be displayed after the shape number)
- 26 represents the colour and pattern of the front sheet
- 30 signifies the colour and design of the sides
